

Hobie Mirage Eclipse
Nose-Rail Guard Kit

Kit Contents

1. (1) EVA bow pad
2. (1) EVA stern pad
3. (1) Under bow guard
4. (1) Left rail guard
5. (1) Right rail guard

Applying the Guards

Apply the left and right rail guards to their corresponding sides so that the notch of the guard frames the Hobie script on the board.

Apply the under bow guard on the bottom of the board so that the tip of the guard does not overlap to the front of the board.

Applying the Pads

To apply the bow pad, align the center of the pad with the center of the board. Pull so that the material stretches and wraps one side of the pad completely around one side of the board, then do the other. Make sure that both the topside and underside are stuck down completely, and ensure that the center of the pads touch and seal.

To apply the stern pad, place it flat on the stern, then wrap it around the sides. When finished, it should sit flush with the bottom of the board.
